

Hardware Assignment 2: A Foot Based Controller

By Atlas X 3

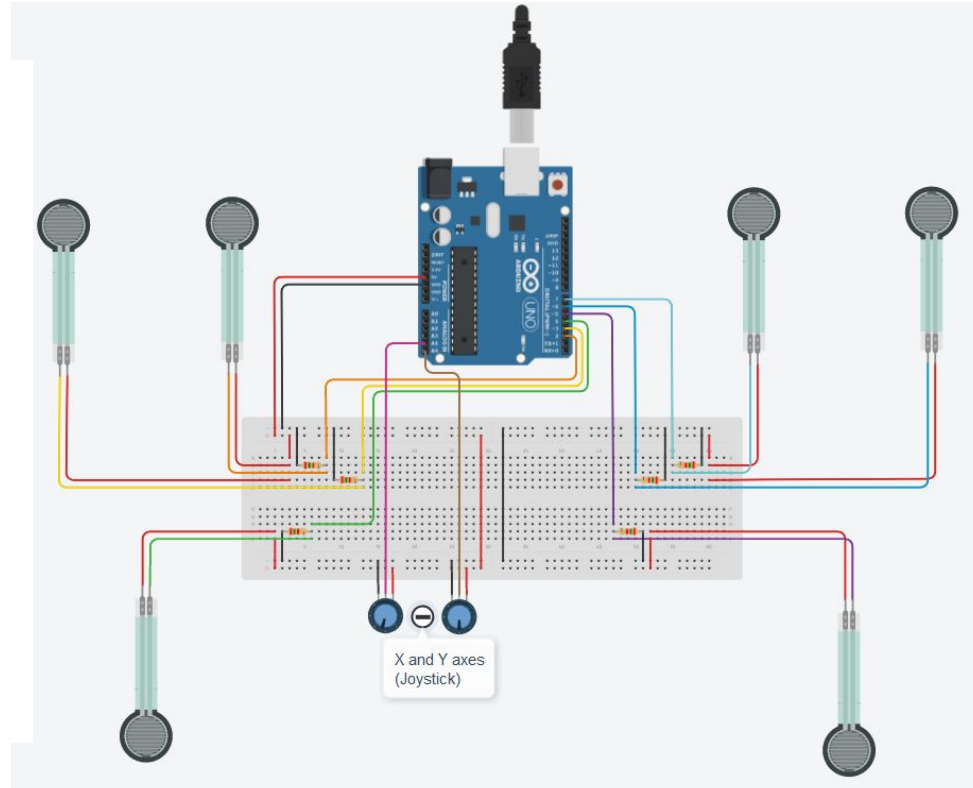

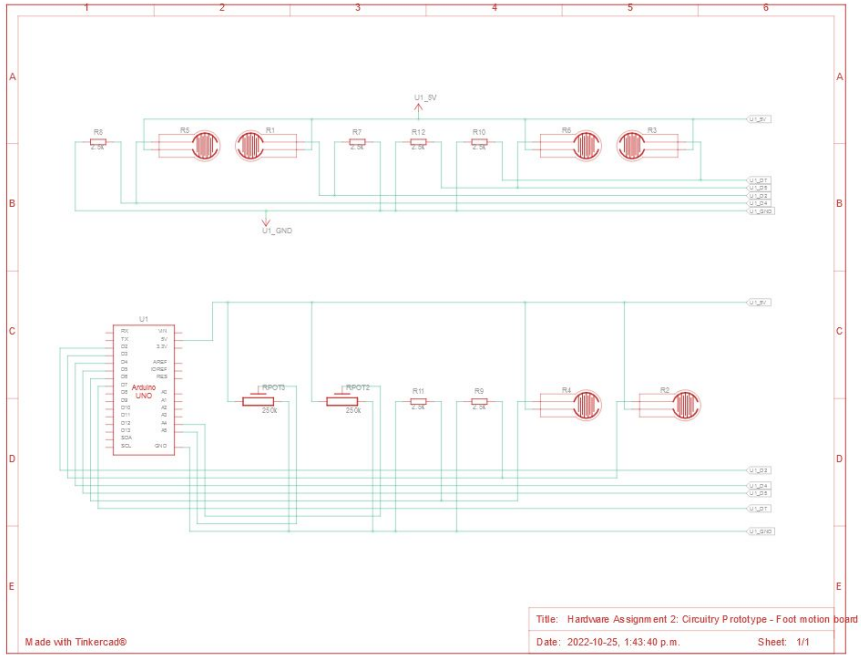

Ame Gilham #100741352

Jackie Zhou #100750922

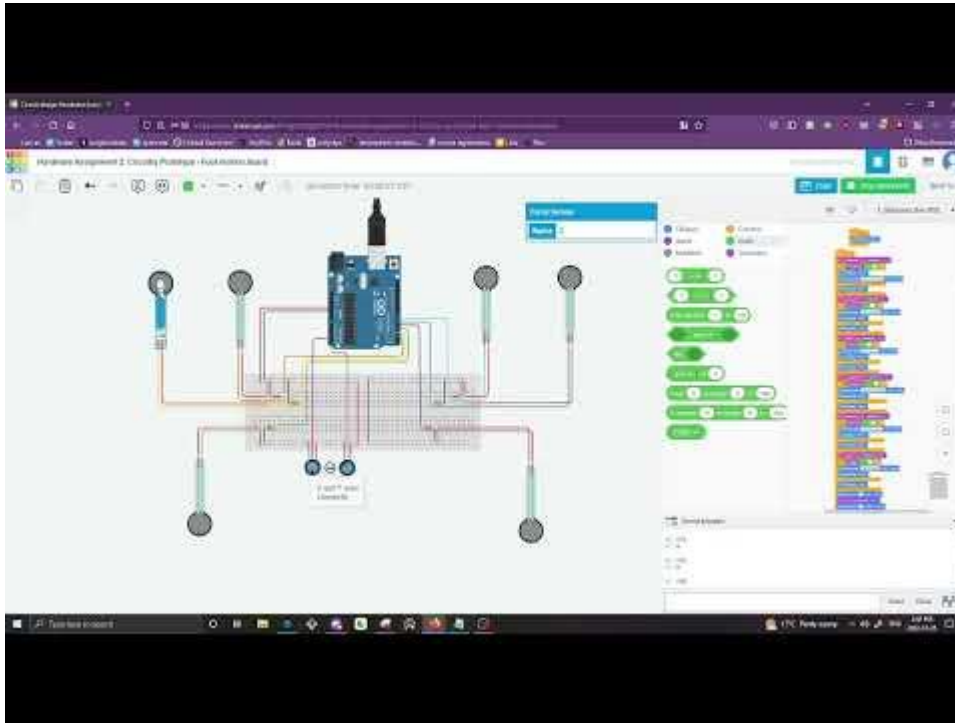

Ryan Sukhu #100600038

Electronics and Circuitry

Electronics

Circuitry Simulation

Electronics Bill of Materials

Quantity	Component Name	Description of Component
1	Arduino Uno R3	A microcontroller board that will be used to handle input and output
1	Breadboard	Used as a hub to connect and organize the wires, resistors, etc.
6	Force Sensor	Sensor that will be used to detect and respond to pressure
6	Resistor	Used to increase or decrease the force sensor's sensing threshold
1	Joystick	Will be used to gather input for x and y axes.
38	Male to Male Wire Connectors	Used to connect various electronic components to the breadboard and Uno

Digital Prototype

Technical Drawings for Parts

Dept.	Technical reference	Created by Ryan Sukhu 2022-10-25	Approved by
		Document type	Document status
		Title Controller	DWG No.
		Rev.	Date of issue
			Sheet 1/1

Bill Of Materials

Item #	Qty	Name	Description
1	1	Shell	Contains the main electronic components and allows the user to interact with it.
2	1	Base	Will hold the joystick and allow the shell to slide.
3	1	Breadboard	Used as a hub to connect and organize the wires, resistors, etc.
4	1	Joystick	Will be used to gather input for x and y axes.
5	1	Arduino Uno R3	A microcontroller board that will be used to handle input and output.
6	6	Force Sensor	Sensor that will be used to detect and respond to pressure.

Paper Prototype and Project Planning

Paper Prototype

Paper Prototype

Planning 1: Roles And Responsibilities

Ame: Software Lead

Jackie: Hardware Lead

Ryan: Design Lead

Planning 2: Kanban Board

The background is a solid dark blue color. In the top right corner, there is a decorative pattern of overlapping triangles in various shades of blue, including a lighter blue and a darker blue, creating a geometric, abstract design.

Thank you for listening!
